

Community

REMPAN Community presents data for your local government area, suburbs, localities and other regions defined by you. Benchmark datasets for the broader region and the State are also provided.

- Access full detail ABS Census data for 1991 to 2016
- Define drive-time areas
- Model housing and population scenarios
- Generate insights for strategic business planning
- Guide investment decisions
- Understand your community
- Target your service delivery

Demographic reports in REMPLAN Community are provided at the finest level of detail available from the Australian Bureau of Statistics (ABS) and appear under the following headings: Population, Work, Migration, Housing, Families, Wellbeing and Education.

REMPAN Community is an analytical resource that has been designed for community development practitioners, strategic planners, researchers, consultants and businesses who want to understand and plan for their market.

Save time ... access the Census database for your area; sorted, graphed and mapped.

Graphs, charts, tables and maps can be copied, or saved in PDF, PNG, WMF and .CSV formats.

Dynamic analytical capabilities are also a key feature of REMPLAN Community. 'Drive-Time Analysis' automatically generates a community profile based on travel time from a specified location. Population and Housing Modelling enables an assessment of housing demand based on a population change or estimated population change based on a housing development.

Need to inform investors?

Community data can be packaged and tailored to your needs.

TAILORED ANALYSES

Full analyses provided utilising available data and presented in a digestible form.

**PUBLIC
ACCESS**

Community Profile

REMPAN Community Profiles are flexible resources that enable users to focus on specific localities as well as the groups of people in the community that are of particular interest to them.

- **Public access demographic data on your suburbs, council areas and ABS geographies**
- **State and National benchmarks**
- **Incorporates fully interactive graphs and maps**
- **Unique downloads**
- **Easily understood information, sourced and explained**

Community Profiles provide valuable insights into the demographic characteristics of your communities with a view to understanding their unique requirements for services, facilities and infrastructure. These insights are underpinned by data from the Australian Bureau of Statistics (ABS) for the 2016, 2011, 2006 and 2001 Census years and are presented under the headings of: Population, Work, Migration, Housing, Families, Wellbeing and Education.

Learn more about your own backyard

So you think you know your own backyard? What about the demographics, the trends, household make up, number of cars and a whole raft of human data. Graphs, charts, tables and maps can be saved in PDF, PNG and CSV formats.

Target audiences for Community Profiles include community groups, health and education providers, government agencies, businesses, potential investors, prospective new residents, researchers, students and media organisations.

REMPAN Community Profile aims to keep it simple by presenting demographic reports at a broad level for a general audience.

Need more detailed data and analysis?

REMPAN Community Profile can be packaged with REMPLAN Community which incorporates staff only access to the full ABS detail for all available geographies as well as population, housing and drive-time modelling.
